

**Education and Emerging Technologies and Communication Committee Meeting**  
**August 24, 2006**  
**1:30 pm**

Meeting Attendees: Don Dursky, IDEED; JoAnn Naples, DNR; Ruth Coleman, IDR; Laura Roeder-Grubb, Human Rights; Margaret Munson, IUB.

Attendees discussed the test system Don Durksy put together based on the Targeted Small Business database hosted by IDEED. With a few modifications, the system seems to meet the immediate needs for a way to research current and past RFPs. Don will make a few modifications to the system for ease of use. Laura and Margaret will work on language for suggested best practices in completing the required data.

Current plans are to move forward with the test server and the suggested language. The committees hope to present the prototype at the October CIO Council meeting and then at the November 9 TGB meeting. JoAnn Naples will update the JCIOs of the progress on this project.

Meeting adjourned at 2:40 pm.
